Section 1: Product and Company Information

Product Name: Hyperkewl Fabric
Product Code: 6500
Product Use: Evaporative Cooling
Chemical Family: N/A
Synonyms: Polymere Embedded Fabric, Air Laden Nonwoven, Nonwoven Fabric
Manufacturer: Techniche International
              2575 Pioneer Ave, Suite 101
              Vista CA 92081
Phone Number: 888-823-2665
Fax: 760-931-8884
24-hour Emergency: CHEMTREC: 800-424-9300

NFPA Rating USA:
- 1: Physical Health Hazard
- 10: Flammability
- 0: Reactivity

EC Classification:
- Irritant

WHMIS Canada:
- (j) 028

Transportation:
- Not Regulated
## Section 3: Hazards Identification

### Preparation Hazards and Classification:
Irritating to eyes, respiratory system and skin.

USA: This product is a not hazardous material as defined by 29 CFR1910.1200, OSHA Hazard Communication Evaluation.

Canada: This is a controlled product under WHMIS.

European Communities (EC): This substance is classified in the Annex I of Directive 67/548/EEC. This substance is considered dangerous and has been classified according to Directive 1999/33/EC and its adaptations. Classification: Irritant

### Appearance, Color and Odor:
White odorless fabric sheet with felt drape feel.

### Primary Route(s) of Exposure:
Inhalation, Ingestion, Eye contact, Skin contact

### Potential Health Effects:
**ACUTE (short term):** see Section 8 for exposure controls

- **Inhalation:** High concentrations of vapors and mists of this product are severely irritating to the upper respiratory tract.

- **Ingestion:** Severely irritating to the gastro intestinal tract irritation with nausea, vomiting and diarrhea. Risk of aspiration into the lungs during swallowing and vomiting; aspiration of this substance may cause severe lung injury.

- **Skin:** Direct contact causes mild skin irritation.

- **Eyes:** Direct contact causes severe eye irritation.

**CHRONIC (long term):** see Section 11 for additional toxicological data

Prolonged or repeated skin exposure may cause drying and reddening of the skin.

### Medical Conditions Aggravated by Exposure:
Not available

## Section 4: First Aid Measures

### Inhalation:
Remove source of contamination or move victim to fresh air. If breathing is difficult, oxygen may be beneficial if administered by trained personnel, preferably on a doctor's advice. Do not allow victim to move about unnecessarily. Symptoms of pulmonary edema can be delayed up to 48 hours after exposure. Immediately transport victim to an emergency care facility.

### Eye Contact:
Quickly and gently, blot or brush away excess chemical. Immediately flush the contaminated eye(s) with lukewarm, gently flowing water for 20 minutes or until the chemical is removed, while holding the eyelids open. Take care not to rinse contaminated water into the unaffected eye or onto the face. Obtain medical attention immediately.

### Skin Contact:
Quickly and gently, blot or brush away excess chemical. Wash gently and thoroughly with warm water and non-abrasive soap for 20 minutes or until the chemical is removed. Under running water, remove contaminated clothing shoes, and leather goods (watch bands, belts).

### Ingestion:
Never give anything by mouth if victim is rapidly losing consciousness, or is unconscious or convulsing. Do Not Induce Vomiting. If vomiting occurs naturally, have victim lean forward to reduce risk of aspiration. Obtain medical attention immediately.

### Note to Physicians:
Frequent handling of raw Hyperkewl Fabric can result in excessive dust and irritation to skin and mucus membranes.
SAFETY DATA SHEET

Section 5: Fire Fighting Measures

Extinguishing Media: Dry chemical, CO2, alcohol foam. Use water spray to cool fire exposed containers.

Unusual Fire and Explosion Hazards:
- Sensitivity to mechanical impact: Not sensitive
- Sensitivity to static discharge: Not sensitive

This substance will burn but is not easily ignited. May form flammable or explosive mixtures with air at temperatures above the substance flash point.

Fire Fighting Instructions: As for any fire, evacuate the area and fight the fire from a safe distance. Wear a pressure-demand, self-contained breathing apparatus and full protective gear. Using water on fires involving this substance may cause frothing with increasing fire intensity.

Hazardous Combustion Products: During a fire, irritating and toxic gases, fumes and vapors may be generated. Products of combustion may include carbon monoxide, carbon dioxide and dense smoke.

Section 6: Accidental Release Measures

Personal Precautions: Wear all proper personal protective equipment as indicated in Section 8. Prevent skin and eye contact. Avoid inhaling vapors and mists of this product. Remove all sources of ignition and heat.

Environmental Precautions: Prevent material from contaminating soil and from entering sewers or waterways.

Methods for Containment: Isolate the spill area. Stop the leak if it is safe to do so. Contain the liquid immediately using a suitable inert absorbent (sand, clay, vermiculite or commercial hydrocarbon absorbents).

Methods for Clean-up: Scoop up contaminated absorbents and place into suitable, covered chemical disposal containers. Large spills may be cleaned up by pumping liquid into closed containers, using equipment appropriate for a combustible, hydrocarbon liquid.

Report all spills of this material that could reach any surface waters, contaminate soils or enter drainage and sewer systems.

Section 7: Handling and Storage

Handling: Do not get on skin or in eyes. Do not ingest or inhale. Wash thoroughly with detergent and water after handling, before eating, drinking, smoking or using the toilet. Remove contaminated clothing and wash before reuse. Follow all MSDS and label precautions even after the container is emptied because they may retain product residues.

Storage: Store in a cool, dry area, out of direct sunlight. Keep containers closed when not in use.
## Exposure Controls and Personal Protection

### Exposure Limits

<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

### Exposure Controls

**Engineering Controls:** Use process enclosures, local exhaust ventilation, or other engineering controls to control sources of mist or vapor.

**Personal Protection:**

- **Respiratory Protection:** Not required for normal use. Wear an approved organic vapor respirator as needed to control exposure. Wear a positive pressure supplied air respirator for uncontrolled releases or when the organic vapor respirator limitations may be exceeded.

  A respiratory protection program that meets OSHA's 29 CFR 1910.134 and ANSI Z88.2 requirements or European Standard EN 149 or Canadian Standards Association (CSA) Standard Z94.4-93 must be followed whenever workplace conditions warrant a respirator's use.

- **Skin Protection:** Wear chemical protective gloves and body-covering clothing to prevent skin exposure.

- **Eye Protection:** Wear chemical goggles. Wear a face-shield when necessary to prevent contact with skin and eyes.

**Other Protective Equipment:** Have a safety shower and eye-wash fountain readily available in the immediate work area.

**Hygiene Measures:** Remove contaminated clothing promptly. Keep contaminated clothing in closed containers. Launder contaminated clothing before re-wearing or discard. Do not eat, drink or smoke in work areas. Wash hands thoroughly after handling this material. Maintain good housekeeping. Avoid skin and eye contact. Avoid inhaling mists and vapors.

## Section 10: Stability and Reactivity

- **Stability:** Stable under normal temperatures and pressures.
- **Conditions to Avoid:** Avoid contact with incompatible materials, and excess heat and ignition sources.
- **Incompatible Materials:** Strong oxidizing agents, strong bases and strong acids.
- **Hazardous Decomposition Products:** Decomposition products may include carbon monoxide, carbon dioxide.
- **Possibility of Hazardous Reactions:** Hazardous polymerization will not occur.

</table>

Carcinogenicity Designations:
ACGIH: American Conference of Governmental Industrial Hygienists
IARC: International Agency for Research on Cancer
NTP: National Toxicity Program
OSHA: Occupational Safety and Health Administration

Irritation: Product is severely irritating to skin, eyes and gastrointestinal tract. High concentrations of dust and particles are expected to be irritating to the upper respiratory system.
Draize Test, Skin (Rabbit); 100mg/24h. Reaction: Severe.

Sensitization: Not applicable
Neurological Effects: Not applicable
Teratogenicity: Not applicable
Reproductive Toxicity: Not applicable
Mutagenicity (Genetic Effects): Not applicable
Toxicologically Synergistic Materials: Not applicable

Section 12: Ecological Information

Ecotoxicity: Not available
Mobility: No applicable
Persistence and degradability: Not expected to biodegrade in natural soil, fresh water, sea water and sediments.
Bioaccumulative potential: Not Applicable
Other adverse effects: Not available
SAFETY DATA SHEET

Section 13: Disposal Considerations

**Waste Disposal Method:** Do NOT dump into any sewers, on the ground or into any body of water. Store material for Disposal as indicated in Section 7 Handling and Storage.

Dispose of in accordance with local, state and federal laws and regulations.

**RCRA Waste numbers:** None listed

**Canada:** Dispose of in accordance with local, provincial and federal laws and regulations.

Waste must be disposed of in accordance with relevant EC Directives and national, regional and local environmental control regulations. For disposal within the EC, the appropriate code according to the European Waste Catalogue (EWC) should be used.

Section 14: Transport Information:

**Canadian Transportation of Dangerous Goods CTDG:** Not regulated

**ADR/RID:** Not regulated

**Marine Pollutants:** Not regulated

**ICAO/IATA:** Not regulated

SAFETY DATA SHEET

Canada

This product has been classified in accordance with the hazard criteria of the Controlled Products Regulations and the MSDS contains all the information required by the Controlled Products Regulations.

WHMIS Classification: 028

NSNR Status <New Substance Notification Regulations>:

This substance is listed on the Canadian Domestic Substance List (DSL).

NPRI Substances <National Pollutant Release Inventory>:

None

EC Classification for the Substance/Preparation:

Symbol:

Risk Phrases:

R36/37/38: Irritating to eyes, respiratory system and skin.

Safety Phrases:

S25: Avoid contact with eyes.
S26: In case of contact with eyes, rinse immediately with plenty of water and seek medical advice.
S27: Take off immediately all contaminated clothing.
S36/37/39: Wear suitable protective clothing, gloves and eye/face protection.
S62: If swallowed, do not induce vomiting; seek medical advice immediately and show this container or label.

Australia:

Present on Inventory of Chemical Substances (AICS).

China:

Present on Chemical Inventory.

Japan:

Existing and New Chemical Substances (ENCS): 2-10

Philippines

Present on inventory of Chemicals and Chemical Substances (PICCS).
